

1. Greenhouse gas emissions for the past three years

Greenhouse gas emissions	Taiwan factory		
	direct emissions (TCO2e)	indirect emissions (TCO2e)	Greenhouse gas emission intensity (TCO2e/m2)
2021	275.74	11,518.11	0.48
2022	450.23	11,730.01	0.25
2023	510.23	15,270.26	0.36

China factory		
direct emissions (TCO2e)	indirect emissions (TCO2e)	Greenhouse gas emission intensity (TCO2e/m2)
209.60	17,623.61	0.20
756.05	13,123.68	0.16
910.56	25,425.25	0.30

2. Water usage for the past three years

Water intake	Taiwan factory		
	Total water intake (Million liters)	Total wastewater discharge (Million liters)	Water consumption (Million liters)
2021	172.14	130.38	41.76
2022	133.84	114.18	19.66
2023	152.75	131.69	21.06

China factory		
Total water intake (Million liters)	Total wastewater discharge (Million liters)	Water consumption (Million liters)
102.45	78.26	24.19
91.99	75.18	16.81
122.47	51.82	70.65

3. Total waste weight for the past three years

Waste output	Taiwan factory		China factory	
	General industrial waste (T)	Hazardous industrial waste (T)	General industrial waste (T)	Hazardous industrial waste (T)
2021	188.80	220.08	132.83	130.88
2022	188.80	186.18	273.45	182.42
2023	188.80	211.66	51.78	101.07
