## Specification

|                                                                   |                        |
|-------------------------------------------------------------------|------------------------|
| L size(mm)                                                        | 1.0±0.10               |
| W size(mm)                                                        | 0.5±0.10               |
| T size(mm)                                                        | 0.5±0.10               |
| Size code Inch(mm)                                                | 0402(1005)             |
| Inductance(nH)                                                    | 22                     |
| Tolerance                                                         | G(±2%), H(±3%), J(±5%) |
| Test Frequency(MHz)                                               | 100                    |
| DCR(Ω) Max.                                                       | 0.7                    |
| I <sub>rms</sub> (mA) Max.                                        | 300                    |
| Q Value (Min.)                                                    | 8                      |
| SRF(MHz) Min.                                                     | 1900                   |
| Operating Temperature range(including self-temperature rising) °C | -55~+125               |

## Notices

- Particular ceramic material and coil structure provide high frequency application range up to 10GHz.
- Small size and low profile.
- Available in various sizes.
- Excellent solderability and heat resistance.

## Packing

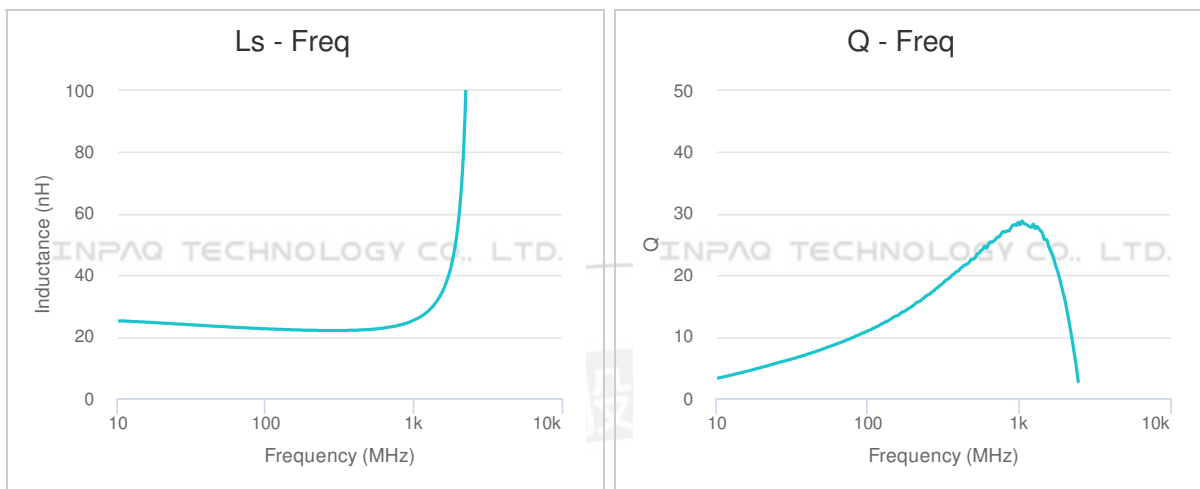

| Packing Reel(Inch) | Packaging type | Standard package quantity(PCS) | Piece weight(gram) | MSL Level |
|--------------------|----------------|--------------------------------|--------------------|-----------|
| 7                  | Paper type     | 10000                          | 0.00069            | 1         |
