## Specification

|                                                                   |            |
|-------------------------------------------------------------------|------------|
| L size(mm)                                                        | 1.6±0.15   |
| W size(mm)                                                        | 0.8±0.15   |
| T size(mm)                                                        | 0.8±0.15   |
| Size code Inch(mm)                                                | 0603(1608) |
| Inductance(nH)                                                    | 100        |
| Tolerance                                                         | J(±5%)     |
| Test Frequency(MHz)                                               | 100        |
| DCR(Ω) Max.                                                       | 1          |
| Irms(mA) Max.                                                     | 300        |
| Q Value (Min.)                                                    | 12         |
| SRF(MHz) Min.                                                     | 600        |
| Operating Temperature range(including self-temperature rising) °C | -55~+125   |

## Notices

- Particular ceramic material and coil structure provide high frequency application range up to 10GHz.
- Small size and low profile.
- Available in various sizes.
- Excellent solderability and heat resistance.

## Packing

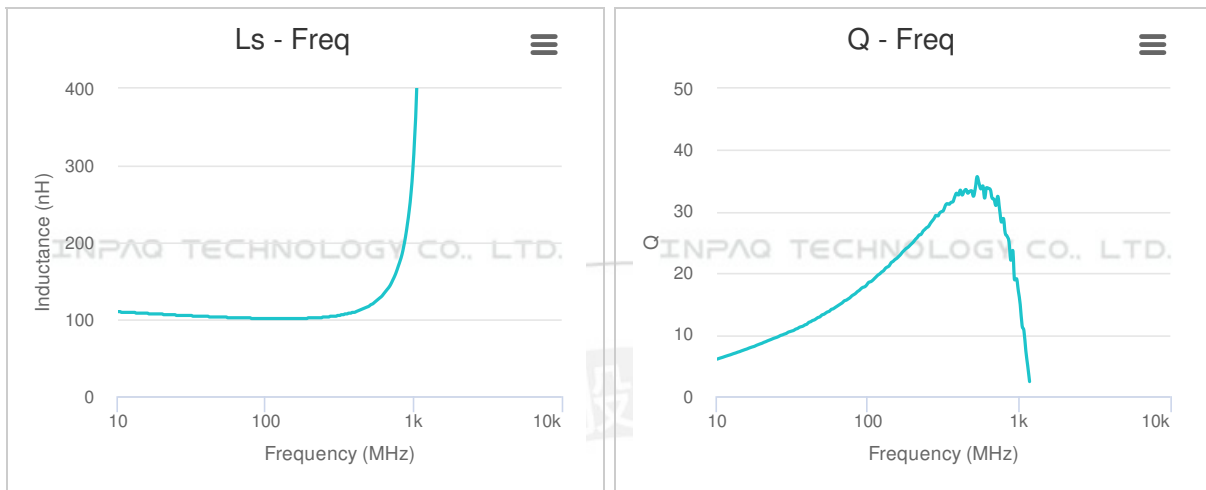

| Packing Reel(Inch) | Packaging type | Standard package quantity(PCS) | Piece weight(gram) | MSL Level |
|--------------------|----------------|--------------------------------|--------------------|-----------|
| 7                  | Paper type     | 4000                           | 0.00285            | 1         |
